these proceedings emanate from the second prostate conference on prostate cancer
 held on October 17-19, 1986 the theme of which was treatment with focus on current
 issues and future research that is needed to answer critical questions related to optimal
 management of the various stages of prostate cancer the objective was to reveal the
 most crucial problems impeding progress and to crystallize the combined multidisciplinary
 input generated by the conference into focused concepts or recommendations for
 presentation to the National Cancer Institute (NCI) with the ultimate intent of targeting
 research to address the priority issues identified in organizing the workshop every effort
 was made to maintain a multidisciplinary balance among nationally renowned authorities
 on prostate cancer thus leading surgeons radiation and medical oncologists and
 biostatisticians were in equal presence while there were spirited exchanges with careful
 scrutiny and critique of all data presented there was a common belief that the challenge
 of prostate cancer would be best approached in this multidisciplinary organ systems
 oriented fashion during the course of the conference it became apparent to all present
 that major nomenclature and procedural barriers have made it generally difficult and
 frequently impossible to compare results of clinical research
